DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-21 drawn to an apparatus having a specific micro-mechanical device.
 - II. Claim 22-30, 39-40, 44-46 and 58 drawn to a method of fabricating a micro-mechanical component.
 - III. Claims 31-38 drawn to an apparatus having a three-dimensional antenna.
 - IV. Claims 41-43 and 59-62 drawn to a radio frequency (RF) system.
 - V. Claim 47-57 drawn to a method of planarizing a polymer layer.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I to V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the micro-mechanical device having an actuatable member can be practiced without the needed for the three-dimensional antenna having a specific wall portion or the radio frequency (RF) system. Furthermore, the method of fabricating a micro-mechanical component or planarizing a polymer layer can be practiced with other means than the claimed product.

Art Unit: 2821

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
